    Named workout
    Pressed continue to proceed
Adding treadmill workout
    Pressed timer
    Named timer title
    He saved it
Adding pushup workout
    Pressed counter
    Unit of measurement is confusing

He found the graph button
    I want to be able to see how far I ran
    I want to see a whole graph to interact with it.
I want to be able to add pushups in sets

To add a new file, he pressed Settings. His next option was home. He did not recognize the plus sign.

Name new tracker

I want to be able to know how much I watered my plants
Counter is an ambiguous word

For graphs, I want to see small scaled graph and click again to see detailed view

I want to see just individual data

Feels too broad
I am not sure what the goal of this app is.

*Dyllan clicked counter by mistake when trying to create a to do list, he doesn't know what the icon is for the counter.

*Counter he thinks it's the total number of the groceries.

*When editing that is confusing that I can edit both lists with just one edit button, it's not location specific.

*Confused how editing works, right now you have to click edit before doing the other edit.

* What is the counter option?
*Going back now.

This the work out functionality:
-Adding a working out and continuing seems to be good,
-Clicking the checkbox, is confused having the bottom.

-Picks counter for how many pushes ups that he wants to do
-The home button only shows up on the home screen and isn't usable.
.
